- Opening the meeting.
- Elsa is appointed chair of the meeting
- Elsa is appointed secretary of the meeting
- Carolina is appointed adjustment person

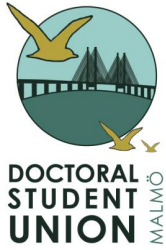

Agenda

1§ Feedback and info:

- **Network meeting with the representatives in the university boards:**
Invited to this boardmeeting was our representatives in the advisory boards at the university. Not all could attend but Adam Johnsson, the representative in the advisory board for collaboration, Angelica Wågby our representative in the advisory board for research ethics and El Häkkinen our representative in the advisory board for equality and equal opportunities attended. Invited and attending was also Nada Amroussia, that is managing the DSU international chapter.
- Our invited representatives shared their experiences and information from the different boards. Some information that was shared concerned the planning of a PhD course in collaboration.

2§ Discussion topics:

- **The new migration legislation**
Nada shared her work surrounding the new migration legislation. Elsa and Carolina shared how the topic has been discussed in the university boards. We decide to continue the discussions in the university boards so that the management are aware of the difficulties that the changes present to international doctoral candidates. We also discussed the possibilities of organizing a social event for international doctoral students.
- **Phd handbook**
SFS have made an online PhD handbook. We discuss how we can use this and get it out to our members. Some of the forums that we suggest are: our webpage, during introductions for new PhD students, maybe we can pin it on our facebook page.

- **Planning ahead.**
 - a. Activity plan: We decide that Elsa and Carolina make an appointment to finish a draft of the activity plan before our next meeting. All other board members can add or comment in our draft before that so that the whole board are able to give input. That way we can finalize the activity plan at our next meeting.
 - b. After work: we discuss hosting an after work. This may be a good opportunity to reach out to possible new boardmembers. We are now free to invite phd student to meeting IRL.
